Mohr Safety

Cold Stress: Do you know what hypothermia is? As the temperatures drop, it's important to prevent cold stress and protect yourself from the elements. Be safe and layer clothing for this cold weather season.

Work Orders: If you need a repair, please start a work order and be sure to contact the shop. Available in sea can and counter.

PLEASE remember with the cold weather steel is very brittle and fragile. Go slowly and gently with equipment / trucks. No sudden movements or impacts.

**Thank you to all snow crew for your dedication!
Keep up the good work and stay safe!**
